## Vox ADSL Phone

- > Is a fixed line Voice over Internet Protocol (VoIP) enabled telephone worth **R3000**
- > It offers savings of up to 50% on your telephone bill and money back when people call you
- > It's also a wireless VoIP Internet router that replaces any modem/router that you currently have
- > It compliments your existing telephone service
- > It's easy to set up and use
- > There are no contracts or lock-ins
- > The call quality is unrivalled
- > **All Vox to Vox calls are absolutely free**
- > For R49 per month, and a once-off fee of R300, you get a wireless modem and a cordless DECT phone that offers you the choice to switch between Vox and Telkom.
- > This is an ideal product for residential homes and small businesses
- > 1GB = approx 4200min of call time

**NB: The Vox ADSL Phone requires a working ADSL line.**

## 1GB ADSL

- > ADSL is an Internet access technology that makes use of Telkom's existing copper telephone network
- > Provides broadband Internet, VoIP and other online services to homes and businesses
- > High speed, always-on Internet
- > Vox ADSL is ideal for Internet surfing and email access
- > The ideal companion for the Vox ADSL phone
- > **R50 once-off fee**
- > R76/GB and R60/GB thereafter

## Vox ADSL PBX

- > Vox ADSL PBX features voice, PBX and data functionality in a single desktop solution
- > Perfect for small business and home office with up to 8 users
- > Supports 2 Vox channels and integrates 2 Telkom analogue lines
  - Reduce your telecommunication costs
  - Earn cash rebates on calls received
  - Carrier class voice quality
  - Easy installation
